

REMARKS

Claims 1-42 were presented for examination.

Claims 1, 6-15, 31-32, 35-37, 39, and 41 were rejected. These claims are canceled herein in order to place this application in condition for immediate allowance. Applicants reserve the right to file a continuation application including the subject matter of these claims.

Claims 2-5, 16-30, 33-34, 38, 40, and 42, were indicated as being allowable. Claims 2 and 42 were objected to. In various telephone interviews with the Examiner, the objection to claim 2 was withdrawn. Claim 42 is amended to recite a wireless communication apparatus including a browser program product; it was agreed with the Examiner that this amendment overcomes the objection.

New formal drawings are submitted herewith, and the approval of the Examiner is requested. The specification is amended in conjunction with changes in the drawings, in which Figs. 17a, 17b, 18a, 18b were divided in multiple drawing sheets in order fit the drawing requirements.

If the Examiner believes that any issues remain outstanding prior to allowance of this application, the Examiner is respectfully invited to contact the undersigned attorney to resolve such issues in an expedient manner.

Favorable action is solicited.

Respectfully submitted,  
ADAM DE BOOR & MICHAEL D. EGGERS
